TO WHOM IT MAY CONCERN

It is with great appreciation and thankfulness that I would like to acknowledge Education Without Borders , as well as Building Bridges , for their donation and support during this lockdown period.

Because of the lockdown - with no income for many of our parents - we once again witnessed the need throughout our community. The donation of food , including vegetables and fruit, fed more than 200 learners and adults every alternative day.

Since school started, we are currently feeding about 50 Gr 7 learners , as well as 120 people from the community, on a daily basis.

Our parents in the community, as well as learners from our school, always show their appreciation when collecting food.

We appreciate your continuous relationship with our educators and learners. We hope that your future endeavours will include our school community.

Thanking you in education.

Mr. Q.L.Heinrich
